ALDER CIRCUIT

# Inquiry checklist

What a fabricator needs before it can price a stack

CONCEPT SAMPLE / NOT FOR ENGINEERING OR PURCHASING

| | |
|---|---|
| FABRICATION PACKAGE | **Gerber, drill, IPC-2581** |
| BOARD CONSTRUCTION | **Layer count and stack-up** |
| LAMINATE | **Supplier part number, not FR-4** |
| COPPER AND TOLERANCES | **Outer, inner, thickness** |
| TRACE AND GAP | **As etched, with impedance** |
| DRILL | **Hole sizes and aspect ratio** |
| SURFACE FINISH | **Thickness and shelf life** |
| PANEL FORMAT | **Unit size, rails, break-away** |
| TEST | **Electrical, coupon, cross-section** |
| ACCEPTANCE | **IPC class and bow and twist** |
| DELIVERY | **Quantity, dates, packaging** |
| CHANGE CONTROL | **Revision and ECO process** |

A quotation is only comparable when both suppliers were given the same answers.
Anything left unspecified is decided by the supplier, not by you.
